HEALTHCARE SUPPLIER GLN QUICK START GUIDE

For implementing the GS1 Global Location Number (GLN)

If your company has joined the industry-wide movement to GLNs to improve the management of location information, the Healthcare Supplier GLN Quick Start Guide will help you to get started today. The GLN Quick Start Guide provides a brief overview of the steps and resources detailed in The Healthcare Supplier Tool Kit that are needed for a successful GLN implementation in your organization.

Select one of the three options shown based on your organization’s member status. If you already have a GLN, you are a member of GS1 US*. If you do not have a GLN, then review the two non-GS1 US member options shown on the next page and select the one that meets your business needs.

OPTION 1: GS1 US MEMBER WITH A PREFIX

1. Obtain an official company GLN by contacting GS1 US Customer Service at +1 937.610.4222
2. Determine if there is an individual within your company who assigns GLNs. Check with individuals who are participating in the following activities that require the use of GLNs:
   - Participation in the Global Data Synchronization Network™ (GDSN®). A list of participating companies is available at www.gs1us.org/hctools
   - Does your company conduct any business in the retail/grocery/hardline sectors? If so, many companies in this sector, from Wal-Mart to SUPervalu to Cabala’s, require GLNs from their suppliers.
   - Check with your GPOs if they have requested GLNs from you in the past.
3. Utilize implementation tools provided by GS1 Healthcare US
   - Healthcare Supplier GLN Tool Kit: www.gs1us.org/hcsuptoolkit
   - Industry GLN Initiative: www.gs1us.org/hcsunrise
   - GLN Industry Implementation Plan: www.gs1us.org/hctools
   - Use Cases on the GS1 US Website: www.gs1us.org/hcstudies
   - GLN Focused Education: www.gs1us.org/hcedu
   - GLN Industry Readiness Scorecards: www.gs1us.org/hcscorecard
   - Complete Healthcare Supplier GLN Readiness Scorecard and review organizations implementing.
4. Join the GLN Registry online at www.gs1us.org/glnregistry
   - Annual fee applies based on revenue.
   - Use assigned GLN as address.
   - Assign additional GLNs as business need dictates.
   - Check the “Validated” box in the Registry.

GS1 Healthcare US

GS1 Healthcare US is an industry group focused on driving the adoption and implementation of GS1 Standards in the healthcare industry to improve patient safety and supply chain efficiency. GS1 Healthcare US brings together members from all segments of the healthcare industry to address the supply chain issues that most impact healthcare in the U.S.

GLN IMPLEMENTATION IN U.S. HEALTHCARE

The goal of GLN implementation in U.S. healthcare is to use standardized location identification (GLNs) across all trading partners, which means:
- GLNs are assigned by location owners.
- GLNs are used in appropriate business transactions and processes between trading partners.
- GLN hierarchy is defined and maintained by location owners.
- GLN Registry is used to facilitate correct location identification.

EDUCATION

GS1 Healthcare US offers free webinars on a variety of topics to help you with your GS1 Standards implementation. A current schedule is available on our website at: www.gs1us.org/hcedu

Complimentary Implementation Workshops, co-sponsored by AHRMM, HSCA, SMI & GS1 US.
